

Protective and Decorative Coatings

PowderPro[®]

INTRODUCTION

PowderPro[®] is Giant Coatings' powder coatings application process that not only provides protection from the elements but also beautiful aesthetics. For those of you that describe yourselves as hot-rodders, gearheads, bikers, builders of all sorts or even pilots, we understand your kind as we are your kind. **PowderPro[®]** is the part of our business that we have the most fun with and you will find that we get almost as much enjoyment from the success of our projects as you do.

Giant Coatings strives for perfection in meeting your needs and **PowderPro[®]** is about meeting the "Disney standard". "What's a Disney standard", you ask? Disney is the nickname of the fussiest guy we know.

BENEFITS

PowderPro[®] is about getting amazing looks on your projects and components as well as protecting those items for the long term.

PowderPro[®] can be applied on various materials for endless a wide variety of applications.
